

# VISIONAIR BLUE LINE

## GASFREE

With the VisionAir BlueLine GasFree you can filter harmful gases, as well as dust from your indoor air. All kinds of health complaints are caused by chemical components in interior spaces, such as formaldehyde. The biggest polluters are building materials, upholstery and furniture. Due to poor ventilation and poor humidity, there are also polluting gases in the air caused by fungi and pollen. Depending on the content of the room you can opt for a VisionAir Blue Line 1 or a VisionAir Blue Line 2. Both can be mounted to or in the ceiling. The VisionAir Blue Line 1 can also be mounted on the wall and on a movable display.

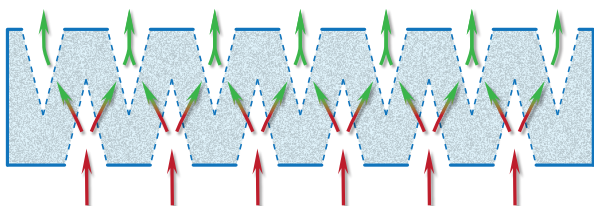

### FILTER PRINCIPLE

The VisionAir Blue Line MicrobeFree contains a unique filter system, which cleans indoor air in two phases.

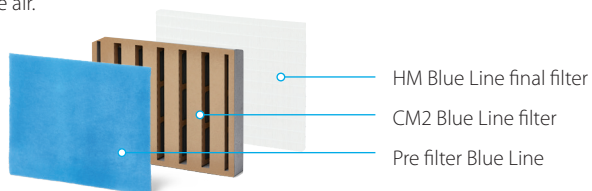

Phase 1: the **pre filter Blue Line** captures the bigger particles of dust and other polluting items such as hairs and skin flakes.

Phase 2: the **CM2 Blue Line filter** with a content of 6,3 kg activated carbon captures unpleasant odours and harmful gases. This filter has a long-lasting operation and a long filter life. The unique V-shaped filter ensures an effective filter operation.

The CM2 Blue Line filter in operation:

Phase 3: the **HM Blue Line nafilter** ensures that (fine) dust is filtered out of the air.

### DIMENSIONS VISIONAIR BLUE LINE 1 GASFREE

Dimensions L x W x H	630 x 620 x 290 mm
Built-in height	210 mm
Net weight	16,5 kg

### DIMENSIONS VISIONAIR BLUE LINE 2 GASFREE

Dimensions L x W x H	630 x 1050 x 290 mm
Built-in height	210 mm
Net weight	32,5 kg

### APPROVALS/CERTIFICATES

## SPECIFICATIONS

	VISIONAIR BLUE LINE 1	VISIONAIR BLUE LINE 2
<b>Physical properties</b>
